Barry and The Consultancy Group contacted us at the beginning of the year. He introduced himself to us on behalf of the company in a way in which we felt comfortable enough to deal with even though we had dealt direct with Orange for the past three years.

We have a large account with approximately 200 phones so obviously there is a lot of competition for our business. During the process we asked for a range of references across the country which Barry produced us with. These showed that he had the knowledge, support and commitment to provide us with exactly what we were looking for.

Since signing the deal with The Consultancy Group and Barry we have never looked back. He has always been polite and helpful anytime we have needed his assistance and has always conducted himself in a professional manner. Everything that he has promised us he has always delivered. In some cases where we have required replacement handsets Barry has taken up his own time to personally bring us any goods directly to us which has been much appreciated.

I am pleased to recommend Barry and The Consultancy Group, if any further information is required then please don't hesitate to contact me.
